WORK EXPERIENCE

UZERLY

Senior Frontend developer

May 2023 - Present

Paris, France

working as a Senior Frontend Developer at Uzerly, a remarketing solution. I leverage React, Redux, Express, and MySQL in my development process.

OMNEVO

FullStack web developer

Sep 2021 - May 2023

Wiesbaden, DE

participated in building, refactoring, and fixing the Omnevo ERP system. While primarily focusing on frontend development, I also contributed to API development. We utilized PHP (Laravel), Angular, and React throughout the project.

QOLOC

Frontend Developer

Apr 2021 - Sep 2021

Toulouse, FR

Participated in building: Qoloq frontend using Vue.js and integrating a Laravel API. Over the 6 months, I gained valuable technical skills and improved my abilities in communication, team management, emotional intelligence, and problem-solving.

AUTOLIA.COM

Frontend Developer

Oct 2020 - Apr 2021

Tanger, MR

Spearheaded the development of a car selling website leveraging the Laravel framework. I also implemented Python for data scraping and ensured a high-quality, zero-downtime deployment through DevOps practices.
